SUMMARY

Motivated and detail-oriented Computer Science student with strong practical training in front-end development using Angular, and a solid foundation in artificial intelligence. Completed internships with CIB Bank and Microsoft, and currently enrolled in the Digital Egypt Pioneers Initiative. Skilled in building responsive web applications, UI/UX design, and integrating AI-driven tools. Eager to contribute to real-world projects through collaborative, fast-paced environments.

EDUCATION

Faculty of Computers and Information – Future Academy, Egypt

2022 – 2026

Bachelor's Degree in Computer Science (Currently in 4th Year)

WORK EXPERIENCE

Front-End Intern – CIB Bank (Hybrid)

June – August 2024

- Completed intensive training in front-end development using the Angular framework.
- Gained foundational experience in back-end development and data science concepts.
- Collaborated on hands-on projects simulating real-world banking applications.
- Developed a strong understanding of full-stack workflows and modern development practices.

AI Trainee – Microsoft @ Future Academy

May – July 2025

- Gained foundational knowledge in Artificial Intelligence concepts.
- Learned about Machine Learning, Computer Vision, and Natural Language Processing.
- Worked on simple AI models and explored real-world applications.
- Used tools like Python and Microsoft Azure AI services.

Front-End Trainee – Digital Egypt Pioneers Initiative

June 2025 – Jan 2026

- Studying advanced front-end development using Angular.
 - Building dynamic and responsive web applications.
 - Gaining practical skills through guided training and real-world tasks.
-

skills

- **Technical Skills:**
- Front-End Development: HTML, CSS, JavaScript, Angular, TypeScript, Bootstrap
- AI & Data: Basic knowledge of Machine Learning, NLP, and Computer Vision
- UI/UX Design: Figma, Responsive Design
- **Languages:** Arabic (Native), English (Good)
- **Soft Skills:** Teamwork, Problem Solving, Time Management, Self-Learning
